DIAGNOSTIC MICROBIOLOGY AND INFECTIOUS DISEASE

Volume 19 (1994) Contents

NUMBER 1, MAY

Bacteriology

Improved Detection of Spontaneous Bacterial Peritonitis with BACTEC as Compared with Conventional Culture Methods: A Prospective Survey 1
Nina Singh, John D. Rihs, Timothy Gayowski, Luis Mieles, and Victor L. Yu

Evaluation of Three Methods for the Rapid Identification of *Staphylococcus aureus* in Blood Cultures 5
Martin Skulnick, Andrew E. Simor, Mohan P. Patel, Helen E. Simpson, Karen J. O'Quinn, Donald E. Low, Anne M. Phillips, and Glen W. Small

Mycology

Multicenter Comparison of a Colorimetric Microdilution Broth Method with the Reference Macrodilution Method for in vitro Susceptibility Testing of Yeast Isolates 9
Michael A. Pfaller, Barry Buschelman, Martha J. Bale, Michael Lancaster, Ana Espinel-Ingroff, John H. Rex, and Michael G. Rinaldi

Virology

Evaluation of the CMV-vue Antigenemia Assay for Rapid Detection of Cytomegalovirus in Peripheral Blood Leukocytes 15
José L. Pérez, Dolores Mariscal, Fe Tubau, Jordi Niubò, and Rogelio Martín

Parasitology

Comparison of Four Different Immunoassays for Detection of *Toxoplasma*-Specific Immunoglobulin G 19
Margaret A. Olsen and Pamela P. Root

Antimicrobial Susceptibility Studies

Laboratory Diagnosis of Oxacillin Resistance in *Staphylococcus aureus* by a Multiplex–Polymerase Chain Reaction Assay 25
Gilles Zambardi, Marie Elisabeth Reverdy, Stéphane Bland, Michèle Bes, Jean Freney, and Jean Fleurette

Antimicrobial Activity of Cefepime Tested Against Bush Group I β-Lactamase-Producing Strains Resistant to Ceftazidime: A Multilaboratory National and International Clinical Isolate Study 33
Ronald N. Jones and Steven A. Marshall

In vitro Synergism of Ceftriaxone Combined with Aminoglycosides Against *Pseudomonas aeruginosa* 39
Michel Laverdière, Barbara Gallimore, Chritiane Restieri, Kal Poonia, and Anthony W. Chow

Case Reports

Diarrhea Associated with *Cyclospora* Sp. in Bangladesh 47
M. John Albert, Iqbal Kabir, Tasnim Azim, Anowar Hossain, Mohammad Ansaruzzaman, and Leanne Unicomb

Pseudomonas stutzeri Infection: A Review of Hospital Isolates and a Review of the Literature 51
Robert C. Noble and Sue B. Overman

Notes

Bactericidal Action of Gentamicin Against Enterococci That Are Sensitive, or Exhibit Low- or High-Level Resistance to Gentamicin 57
Elizabeth L. Fasola, Julia A. Moody, Carol J. Shanholtzer, and Lance R. Peterson

Evaluation of the Pasco Gram-Negative Nonfermenter Identification System 61
Rita Edinger, Ronald R. Courtney, and Gary E. Hollick

Minimum Inhibitory Concentration Quality-Control Guidelines for Biapenem, DU-6859a, FK-037, Levofloxacin, Grepafloxacin, and Ceftizoxime When Using Various National Committee for Laboratory Standards Susceptibility Test Methods 65
Martha J. Bale, Ronald N. Jones, Meredith E. Erwin, and the Quality Control Study Group

NUMBER 2, JUNE

Bacteriology

Bacteriologic Characteristics and Antimicrobial Susceptibility of 70 Clinically Significant Isolates of *Streptococcus milleri* Group 69
José-Luis Gómez-Garcés, Juan-Ignacio Alós, and Rosario Cogollos

Mycology

Antifungal Activity of a New Triazole, D0870, Compared with Four Other Antifungal Agents Tested Against Clinical Isolates of *Candida* and *Torulopsis glabrata* 75
Michael A. Pfaller, Martha J. Bale, Barry Buschelman, and Paul Rhomberg

Mycobacteriology

Mycobacterial Identification by Computer-Aided Gas–Liquid Chromatography 81
Iris Smid and Max Salfinger

Parasitology

Evaluation of the Merifluor Immunofluorescent Assay for the Detection of *Cryptosporidium* and *Giardia* in Sodium Acetate Formalin-Fixed Stools 89
Glynis A. Grigoriew, Sharon Walmsley, Lillian Law, Sinn Lim Chee, James Yang, Jay Keystone, and Mel Krajden

Antimicrobial Susceptibility Studies

Interpretive Criteria for Susceptibility Tests with DU-6859a and FK-037 Tested Against *Haemophilus influenzae* and *Neisseria gonorrhoeae* **93**
Ronald N. Jones, Mary S. Barrett, and Douglas J. Biedenbach

Comparative Evaluation of the E Test for Susceptibility Testing of *Nocardia* Species **101**
Jon R. Biehle, Stephen J. Cavalieri, Michael A. Saubolle, and Linda J. Getsinger

Multicenter Evaluation of the in vitro Activity of Piperacillin–Tazobactam Compared with Eleven Selected β-Lactam Antibiotics and Ciprofloxacin Against More Than 42,000 Aerobic Gram-Positive and Gram-Negative Bacteria **111**
Patrick R. Murray, H. Furman Cantrell, Richard B. Lankford, and the In Vitro Susceptibility Surveillance Group

Clinical Studies

Cefetamet Pivoxil in the Treatment of Uncomplicated Gonorrhea **121**
Ricardo Lucena, Carlos Enrique Borges, Luiz Felipe de Araujo Vieiravles, Jean-Marie Kanga, Peter Hohl, Marinette Zappelini, and Margot Kissling

Note

In vitro Activity of Grepafloxacin (OPC-17116) Against Anaerobic Bacteria **129**
Hannah M. Wexler, Eric Molitoris, and Sydney M. Finegold

Book Review

Understanding Infectious Diseases (Paul D. Ellner and Harold C. Neu) **135**
Reviewed by Albert Balows

NUMBER 3, JULY

Virology

Comparison of Various Transport Media for Viability Maintenance of Herpes Simplex Virus, Respiratory Syncytial Virus, and Adenovirus **137**
Catherine Jensen and F. Brent Johnson

Antimicrobial Susceptibility Studies

Fluoroquinolone Resistance Among Methicillin-Resistant Staphylococci After Usage of Fluoroquinolones Other Than Ciprofloxacin in Taiwan **143**
Shan-Chwen Chang, Wei-Chuan Hsieh, and Kwen-Tay Luh

Symposium Section: Highlights from Two International Symposia on the Subject of the Expanded Role of the Etest

Foreword **149**
Ronald N. Jones

A Multicenter Survey of Resistance in the Netherlands Using the Etest **151**
Bert van Klingeren, Ellen E. Stobberingh, David M. MacLaren, Paul I.M. Schmitz, Monique Murmans, Ton Smeets, and Mirjam Dessens

Penicillin Resistance Among *Streptococcus pneumoniae* in Europe **157**
Gaetano Privitera

Inoculum Effects on Etests and Agar Dilution Minimum Inhibitory Concentrations: Piperacillin and Piperacillin–Tazobactam Against *Staphylococcus aureus* **163**
Giovanni Bonfiglio and David M. Livermore

Optimizing Testing of Methicillin-Resistant *Staphylococcus* Species **167**
Carolyn N. Baker, Ming Bo Huang, and Fred C. Tenover

Problems in Minimum Inhibitory Concentration Determinations in Coryneform Organisms: Comparison of an Agar Dilution and the Etest **171**
Javier Zapardiel, Eva Nieto, M. Isabel Gegúndez, Ignacio Gadea, and Francisco Soriano

Application of the Etest to Antimicrobial Susceptibility Testing of *Legionella* Spp. **175**
Paul R. Rhomberg, Martha J. Bale, and Ronald N. Jones

Etest for Susceptibility Testing of *Mycobacterium tuberculosis* and *Mycobacterium avium–intracellulare* **179**
Audrey Wanger and Karen Mills

Etest for Routine Clinical Antimicrobial Susceptibility Testing of Rapid-Growing Mycobacteria Isolates **183**
Frank P. Koontz, Meridith E. Erwin, Mary S. Barrett, and Ronald N. Jones

Determinations of Minimum Bactericidal Concentrations, Kill Curves, and Postantibiotic Effects with the Etest Technology **187**
Anne Bolmström

NUMBER 4, AUGUST

Bacteriology

Molecular Epidemiology of Gastric Colonization by *Enterococcus faecalis* in a Surgical Intensive Care Unit **197**
Miguel Sabria-Leal, Michael A. Pfaller, Virginia H. Morthland, Sharon A. Young, Richard J. Hollis, Lisa Werkmeister, Rachel L. Kleiman-Wexler, and Kimberly S. Ephgrave

Prevalence of Important Pathogens and Antimicrobial Activity of Parenteral Drugs at Numerous Medical Centers in the United States. I. Study on the Threat of Emerging Resistances: Real or Perceived? **203**
Ronald N. Jones, Eric N. Kehrberg, Meridith E. Erwin, Steven C. Anderson, and the Fluoroquinolone Resistance Surveillance Group

Mycology

Etest for Antifungal Susceptibility Testing of Yeasts **217**
Ana Espinel-Ingroff

Parasitology

Comparison of the ProSpecT and Color Vue Enzyme-Linked Immunoassays for the Detection of *Cryptosporidium* in Stool specimens **221**
Sandra L. Aarnaes, Jeanne Blanding, Scott Speier, Donald Forthal, Luis M. de la Maza, and Ellena M. Peterson

Antimicrobial Susceptibility Studies

Increased in vitro Activity of Ceftriaxone by Addition of Tazobactam Against Clinical Isolates of Anaerobes **227**
Kenneth E. Aldridge, Natchez Morice, and Denise D. Schiro

In vitro Activity of CP-99,219, a Novel 7-(3-Azabicyclo[3.1.0]Hexyl) Naphthyridone Antimicrobial **235**

Thomas D. Gootz, Katherine E. Brighty, Marge R. Anderson, Brenda J. Schmieder, Suzanne L. Haskell, Joyce A. Sutcliffe, Michael J. Castaldi, and Paul R. McGuirk

Note

Dual Infections with *Staphylococcus aureus* and *Streptococcus pyogenes* Causing Toxic Shock Syndrome: Possible Synergistic Effects of Toxic Shock Syndrome Toxin 1 and Streptococcal Pyrogenic Exotoxin C **245**

Russell J. Smith, Patrick M. Schlievert, Inga M. Himmelright, and Larry M. Baddour

Book Review

Viral Hepatitis (R.S. Koff, J. Dienstag, C.A. Reily, and P.H.R. Green) **249**

Reviewed by Albert Balows
